Richard/Eddie,

Thanks again for taking the time to meet with us last week, it was great meeting you both. Attached you'll find a map of the locations we're proposing to install string lighting:

- Cahuenga between Hollywood & Selma
- Cosmo between Hollywood & Selma (Cosmo only has light posts on one side of the street)
- Ivar between Hollywood & Selma

We'd like to explore the feasibility of tapping into BSL's light posts as a power source. Ideally, we'd string lights between the existing light posts along each side of the proposed streets. See attached photo of string lights installed on Main Street in Santa Monica – we'd like to achieve something similar. Are you able to provide us with the following information?

- BSL's string light guidelines
- Confirmation that we can "plug in" to existing BSL light posts
- A list of lighting vendors that've work with BSL on similar projects

I'll be forwarding you a note on broken light post bases in a separate email. Many thanks in advance for your assistance with this, please let me know if you need further information!

Best regards,

MATTHEW SEVERSON*Operations Coordinator*

Richard/Eddie,

A friendly follow up regarding the below items – see yellow highlights.

Many thanks!
